Accessibility
Solutions

Partner with us to embed accessibility into your project

ABOUT ASHTAVAKRA

We transform accessibility from a compliance checkbox into a strategic advantage — and help corporates leverage CSR funds to create sustainable, inclusive, and high-impact projects. Our work spans large-scale infrastructure (50,000+ sqm), digital ecosystems, and organizational culture, embedding accessibility across the built environment, technology, and workplaces.

WHY NOW

- Compliance & Risk: Aligning with RPwD Act (2016), NBC (2016), and HGSS (2021) — along with global standards such as ISO 21542, BS 8300, ADA Standards, and EN 17210 — reduces retrofit costs and legal exposure.
- ESG & Investor Value: Accessibility is now a global ESG benchmark and a key part of CSR-PwD reporting.
- Market Advantage: Inclusive projects attract premium tenants, global investors, and diverse buyers, strengthening brand equity.
- Value Edge: Accessibility audits and certification enhance valuations, de-risk approvals, and support pre-leasing and sales.

WHAT WE DO

ACCESSIBILITY AUDITS & ROADMAPS

AccessCheck™: Comprehensive built environment audits and solutioning support, from design to occupancy

INCLUSIVE DESIGN & STRATEGY

AccessPlus™: Turnkey audit-to-certification process for large-scale residential, commercial, and mixed-use projects

DIGITAL, PROCESS & POLICY ACCESS

AccessDigital™ & AccessPolicy™: Audits for websites, apps, and digital assets (WCAG, ISO 30071-1, GIGW) and integration of accessibility standards into design policies and ESG frameworks

TRAINING & CAPACITY BUILDING

AccessLearn™: Training for architects, engineers, and facility managers to deliver accessibility at scale

CSR COMMUNITY PROJECTS

AccessEquity™: CSR-driven accessibility audits, inclusive retrofits, heritage projects, and urban design initiatives
